RPS Defense is an Aerospace and Defense Industry leading services provider established in 2012. Our focus on operational excellence drives our ability to go above and beyond customer expectations, and our make-it-happen mindset has earned RPS Defense a reputation as a leading provider of defense aviation services around the globe.

RPS Defense is uniquely poised to support ASTRO pursuits given our extensive experience supporting government customers in ISR flight operations, training, quick-reaction aircraft maintenance, weapons teams deployment, and all-source intelligence support.
